LEVEL UP ACADEMY

Class 9 | CBSE / GSEB | Science

Practice Pack: Tissues

Chapter / Topic: Topic-based: use with whichever Class 9 book your students follow

Name: _____ Roll No.: _____ Date: _____

Marks obtained: _____

General instructions:

1. Level 1 checks the ideas, Level 2 is board-style questions, and Level 3 is Foundation-level challenge.
2. Make a tree diagram of plant tissues and of animal tissues before you start.

LEVEL 1: CONCEPTS

Q1. What is a tissue?

Q2. Name the three types of meristematic tissue, according to where they are found.

Q3. Which plant tissue gives flexibility to leaves and stems?

Q4. Name the fluid matrix of blood and the tissue that connects muscle to bone.

Q5. Which type of muscle is found in the heart? Is it voluntary or involuntary?

LEVEL 2: BOARD-STYLE QUESTIONS

Q6. Differentiate between parenchyma, collenchyma and sclerenchyma (any two features each).

Q7. Name the elements of xylem and phloem.

Q8. Give three differences between striated, smooth and cardiac muscles.

Q9. What is the difference between a ligament and a tendon?

Q10. What are the functions of epithelial tissue? Give two examples of where it is found.

LEVEL 3: CHALLENGE (FOUNDATION)

Q11. Why does a tree trunk grow thicker every year, while a grass stem does not? Name the tissue responsible.

Q12. Neurons can be over a metre long. Why does their shape suit their function?

Q13. Water hyacinth floats on water. Which tissue helps it, and how?

~ Tables are your best friend in this chapter. Compare, compare, compare! ~
