# LEVEL UP ACADEMY

Class 10 | CBSE / GSEB | Science

## Class 10 Science: 90-Day Board Revision Plan

---

**Starts Monday 9 November 2026 · 13 weeks · finishes 7 February 2027.** If you start later, keep the order and shift the dates. Every chapter in this plan has a **revision sheet**, a **3-day daily practice pack** (one short sheet a day while the chapter is taught) and a **25-mark chapter test** in the Level Up Academy library.

### Phase 1: Chapter by chapter (Weeks 1–7)

| Week | Dates | Chapters | Test at the end of the week |
|---|---|---|---|
| 1 | 9–15 Nov | Ch 1 Chemical Reactions · Ch 2 Acids, Bases and Salts | Ch 1 + Ch 2 tests |
| 2 | 16–22 Nov | Ch 3 Metals and Non-metals · Ch 4 Carbon and its Compounds | Ch 3 + Ch 4 tests |
| 3 | 23–29 Nov | Ch 5 Life Processes · Ch 6 Control and Coordination | Ch 5 + Ch 6 tests |
| 4 | 30 Nov–6 Dec | Ch 7 Reproduction · Ch 8 Heredity · Ch 13 Our Environment | Ch 7, 8, 13 tests |
| 5 | 7–13 Dec | Ch 9 Light: Reflection and Refraction · Ch 10 Human Eye | Ch 9 + Ch 10 tests |
| 6 | 14–20 Dec | Ch 11 Electricity · Ch 12 Magnetic Effects | Ch 11 + Ch 12 tests |
| 7 | 21–27 Dec | Catch-up week: redo your 3 weakest chapters · diagrams day · numericals day | Set B re-test of each weak chapter (every chapter has a Set B) |

### Phase 2: Board-style practice (Weeks 8–11)

| Week | Dates | Focus |
|---|---|---|
| 8 | 28 Dec–3 Jan | Full mock 1 (CBSE or GSEB pattern, 3 hours) → mark it → error log |
| 9 | 4–10 Jan | Section drills: CBSE assertion–reason + case-based drill · GSEB 40-question objective drill |
| 10 | 11–17 Jan | Full mock 2 (CBSE or GSEB pattern) → compare with mock 1 → fix the top 5 mistakes |
| 11 | 18–24 Jan | Full mock 3 (CBSE or GSEB pattern) + previous years' board papers, timed · revise the error log |

### Phase 3: Final polish (Weeks 12–13)

| Week | Dates | Focus |
|---|---|---|
| 12 | 25–31 Jan | All 13 revision sheets (2 a day) · equation sheet · physics formula sheet · diagram checklist · one 25-mark test every other day |
| 13 | 1–7 Feb | Light revision only · error log · sleep routine · no new topics |

### Daily routine (about 1.5 hours of Science)

- **30 min:** read the revision sheet + textbook for today's topic.
- **40 min:** practise questions without looking at the book (exercise questions, then the chapter test).
- **10 min:** draw and label one diagram from memory.
- **10 min:** write today's mistakes in your **error log** (last page).

**Exam-day strategy.** Use the reading time to plan: mark the questions you're sure of.
Attempt what you know best first, but keep question numbers exactly as in the paper.
Time guide for 3 hours / 80 marks: about 2 minutes per mark, plus 15 minutes to check at the end.
Numericals: formula → substitution → answer **with unit**. Equations: balanced, with states if asked.

Diagrams: pencil, neat labels.

## My targets

My target in Science: _____ / 80.  My three weakest chapters right now:

## My error log

Write every mistake from tests and practice here. Read this page every Sunday, and again the night before the exam.

| Date | Chapter | What I got wrong | The correct idea |
|---|---|---|---|
