Class 10 | CBSE / GSEB | Science

Teacher's Session Plan: 90-Day Board Revision (Class 10 Science)

For Kishan / teachers. This assumes 3 sessions of about 1.5 hours a week. Each cell names the library file to use. If a batch has fewer sessions, merge S1 and S2 and keep S3 for testing.

Phase 1: Chapters (Weeks 1–7)

Wk	Session 1	Session 2	Session 3
1	Ch 1: types of reactions, balancing (revision sheet + balancing worksheet)	Ch 2: indicators, pH, reactions, salts (revision sheet)	Tests: Ch 1 + Ch 2
2	Ch 3: properties, reactivity series, extraction, corrosion	Ch 4: bonding, naming, reactions, soaps	Tests: Ch 3 + Ch 4
3	Ch 5: nutrition, digestion, respiration	Ch 5: transport, excretion · Ch 6: nervous system, hormones	Tests: Ch 5 + Ch 6
4	Ch 7: asexual and sexual reproduction, human reproduction	Ch 8: crosses with checkerboards · Ch 13: food chains, ozone, waste	Tests: Ch 7 + Ch 8 (Ch 13 test as homework)
5	Ch 9: mirrors: formula, sign convention, 6 ray diagrams	Ch 9: lenses, power · Ch 10: eye defects, dispersion, scattering	Tests: Ch 9 + Ch 10
6	Ch 11: Ohm's law, series and parallel, numericals	Ch 11: heating, power, kWh · Ch 12: fields, rules, domestic circuits	Tests: Ch 11 + Ch 12
7	Diagrams day (diagram checklist, each diagram drawn twice)	Numericals day (physics formula sheet + Set B numericals)	Set B re-tests: each student takes their 2 weakest chapters

Phase 2: Board practice (Weeks 8–11)

Wk	Session 1	Session 2	Session 3
8	Mock 1 (CBSE or GSEB pattern), 3 hours, exam conditions	Mock 1 discussion, section by section	Error-log clinic: re-teach the 3 most common mistakes
9	Drill: CBSE assertion–reason + case-based / GSEB 40 objective	Equation sheet: cover and write all 75 equations	Most-expected bank: Chemistry
10	Mock 2 (same pattern), 3 hours	Mock 2 discussion; compare with Mock 1	Most-expected bank: Physics
11	Mock 3 (CBSE or GSEB pattern), 3 hours	Mock 3 discussion + one previous year's board paper as homework	Most-expected bank: Biology + error log

Phase 3: Final polish (Weeks 12–13)

Wk	Session 1	Session 2	Session 3
12	Revision sheets Ch 1–4 + equation sheet quiz	Revision sheets Ch 5–8, 13 + diagram checklist	Revision sheets Ch 9–12 + formula sheet
13	Rapid Q&A on weak topics (no new material)	Exam strategy: time plan, presentation, reading time	Doubt clearing + calm pep talk

After every test: same routine every time

- Mark the papers within 2 days. Students should get their papers back while the test is still fresh.
- Share marks with parents individually: send the marks list to Claude-as-me and it uses the **test-results** skill (class summary + one message per parent).
- Start the next session with 10 minutes on the 2–3 most common mistakes.
- Students copy their own mistakes into the error log at the back of the 90-day plan.

Mock day tips. Seat students as in the board exam. Give 15 minutes of reading time first. No phones in the room. Collect the papers at exactly 3 hours.

Marking. Use the marking scheme strictly, as an examiner would: half marks for missing units or labels. Students should feel the board standard before the boards.
