LEVEL UP ACADEMY

Class 8 | CBSE / GSEB | Science

Practice Pack: Metals and Non-metals

Chapter / Topic: Topic-based: use with whichever Class 8 book your students follow

Name: _____ Roll No.: _____ Date: _____

Marks obtained: _____

General instructions:

1. Part A checks the basics. Part B makes you think and apply.
2. Write word equations first. Then try the chemical equations where they are asked for.

PART A: BASICS

Q1. Give four physical properties of metals.

Q2. Name a metal that is a liquid at room temperature, and a non-metal that is a liquid.

Q3. Why are bells made of metal and not of wood?

Q4. What is the nature of the oxides of metals and of non-metals?

Q5. Why is sodium stored in kerosene?

PART B: THINK AND APPLY

Q6. Write the word equation and the balanced chemical equation for burning magnesium in air. What is the nature of the product?

Q7. Write the equation for burning sulphur in air. What happens when the product dissolves in water?

Q8. A zinc plate is put in copper sulphate solution. What do you observe? Write the equation.

Q9. Will a reaction take place if copper is put in zinc sulphate solution? Why?

Q10. Why are copper and aluminium used to make electric wires?

Q11. Why do iron objects rust, but gold jewellery stays shiny for years?

~ Reactive metals push out less reactive ones. Remember the rule! ~
