Class 10 board season: weekly messages for the student group

One message for every Monday of the **90-Day Board Revision Plan** (9 Nov 2026 – 7 Feb 2027), to post in the Class 10 **student** group. Each one says what this week is about, which sheets to do, and one tip. Change only the `[brackets]`. The parent messages are a separate kit (**parent message series**). Don't name students or share marks in the group.

Post on	Message
Mon 9 Nov	Week 1: Ch 1 + Ch 2
Mon 16 Nov	Week 2: Ch 3 + Ch 4
Mon 23 Nov	Week 3: Ch 5 + Ch 6
Mon 30 Nov	Week 4: Ch 7, 8 + 13
Mon 7 Dec	Week 5: Ch 9 + Ch 10
Mon 14 Dec	Week 6: Ch 11 + Ch 12
Mon 21 Dec	Week 7: catch-up week
Mon 28 Dec	Week 8: Mock 1
Mon 4 Jan	Week 9: drills
Mon 11 Jan	Week 10: Mock 2
Mon 18 Jan	Week 11: Mock 3 + past papers
Mon 25 Jan	Week 12: revision sheets
Mon 1 Feb	Week 13: final week
Any evening	Daily-sheet nudge
Night before the first paper	Good luck

Week 1 (Mon 9 Nov)

```
Hey everyone! Our 90-day board plan starts today 📚
This week: Ch 1 Chemical Reactions and Ch 2 Acids, Bases and Salts.
Daily practice: one short sheet a day, answers in your notebook.
Tests on both chapters on [test day].
Tip: balance every equation by counting atoms on both sides. Every
time.
```

Week 2 (Mon 16 Nov)

```
Hey everyone! Week 2 starts today.
This week: Ch 3 Metals and Non-metals and Ch 4 Carbon and its
Compounds.
Tests on both chapters on [test day].
Tip: learn the reactivity series this week. Say it out loud till it
sticks: K Na Ca Mg Al Zn Fe Pb H Cu Hg Ag Au.
```

Week 3 (Mon 23 Nov)

Hey everyone! Week 3: biology time.
This week: Ch 5 Life Processes and Ch 6 Control and Coordination.
Tests on both chapters on [test day].
Tip: biology marks come from keywords. When you check your daily sheet, underline the words you missed.

Week 4 (Mon 30 Nov)

Hey everyone! Busy week, three chapters 💪
This week: Ch 7 Reproduction, Ch 8 Heredity and Ch 13 Our Environment.
Tests on all three on [test day].
Tip: practise the flower diagram, and do every cross with gametes and a checkerboard. Don't skip steps.

Week 5 (Mon 7 Dec)

Hey everyone! Week 5: physics begins.
This week: Ch 9 Light and Ch 10 The Human Eye.
Tests on both chapters on [test day].
Tip: in every numerical, write u, v and f with signs first. Sign convention right = answer right.

Week 6 (Mon 14 Dec)

Hey everyone! Last new chapters this week 🎉
This week: Ch 11 Electricity and Ch 12 Magnetic Effects.
Tests on both chapters on [test day].
Tip: formula, substitution, answer with unit. That's how numericals get full marks.

Week 7 (Mon 21 Dec)

Hey everyone! All 13 chapters done. Well done!
This week is catch-up week. Pick your 3 weakest chapters and redo them.
We'll have a diagrams day and a numericals day, and a Set B re-test for weak chapters on [day].
Tip: open your error log. Your weak chapters are already written there.

Week 8 (Mon 28 Dec)

Hey everyone! Time for our first full mock 📝
Mock 1: [day], [time], 3 hours, your board's pattern.
Bring pens, a pencil, a scale and an eraser.
Tip: read the whole paper in the first 15 minutes, then start with the questions you're surest about.

Week 9 (Mon 4 Jan)

Hey everyone! Happy New Year! 🎉
This week: section drills. CBSE: assertion–reason and case-based questions. GSEB: 40 quick objective questions.
Tip: in assertion–reason, first decide if A and R are each true. Only then ask if R explains A.

Week 10 (Mon 11 Jan)

Hey everyone! Mock 2 this week.
Mock 2: [day], [time], 3 hours.
Before it, read your error log from Mock 1. Same mistake twice is the only real mistake!

Week 11 (Mon 18 Jan)

Hey everyone! Mock 3 this week, plus past board papers.
Mock 3: [day], [time], 3 hours.
Try one past paper at home too, with a timer.
Tip: keep 10 minutes at the end to check units, labels and equations.

Week 12 (Mon 25 Jan)

Hey everyone! Final polish starts now.
This week: two revision sheets a day, plus the equation sheet, formula sheet and diagram checklist.
Short 25-mark tests on [days].
Tip: no new books now. Revise what you've already practised.

Week 13 (Mon 1 Feb)

Hey everyone! Last week of the plan. You've done the work 🙂
Only light revision now: your error log, revision sheets and diagrams.
Sleep on time, eat well and keep your phone away while studying.
No new topics this week. Trust your preparation.

Daily-sheet nudge (any evening)

Quick reminder: today's daily practice sheet 📚
25 minutes, answers in your notebook, then check with the key.
Small daily practice = big marks in the boards!

Good luck (night before the first paper)

All the best for tomorrow, everyone! 🍀
You've practised more than enough. Read every question calmly, write neatly and label your diagrams.
Sleep early tonight. Proud of every one of you!
