7. Enquiry FAQ: replies in my voice

Use with the **parent-messages** skill (template 9). Answer only with facts from `me/academy.md`.

"What are the fees?"

```
Hi! For [Class X], the fee is ₹[amount] per [month/quarter], which includes [tests, study material]. Happy to explain everything when you visit 🙂
```

(If you prefer not to share fees in the first message:)

```
Hi! The fees depend on the class and subjects. Can I call you for 2 minutes, or would you like to visit? I'll explain everything then 🙂
```

"What are the timings?"

```
Hi! [Class X] batch timings are [days], [time]. We also have [another slot] if that suits you better.
```

"Which board do you teach?"

```
We teach both CBSE and GSEB students 🙂 Tests and papers follow each board's own pattern, so your child practises exactly the way the board exam will come.
```

"How many students per batch?"

```
We keep batches to about [n] students, so everyone gets attention and doubts get cleared in class itself.
```

"Do you give a demo class?"

```
Yes, of course! [Child] can attend a free demo class on [day] at
[time]. Shall I book it?
```

"How will I know how my child is doing?"

```
After every test, I send you your child's marks and a short note on
what's going well and what to work on. You're always welcome to call
me too 🙂
```

"My child is weak in Science. Can you help?"

```
Absolutely. Most students who feel "weak" just have a few gaps from
earlier classes. In the first two weeks I'll find exactly where those
gaps are and give extra practice on them. Would you like to start with
a demo class?
```

"Do you give study material?"

```
Yes. Every chapter comes with a one-page revision sheet, and a chapter
test with full solutions after the test. Class 10 also gets full
board-pattern mock papers.
```

"Can my child join in the middle of the year?"

```
Yes. I'll share the revision sheets for the chapters already done so
[he/she] can catch up, and we'll plan a little extra practice for the
first few weeks.
```

"Where are you located?"

```
We're at [address / landmark]. Here's the map link: [link] 🙂
```

8. Demo class: plan + follow-up

45-minute demo plan:

1. (5 min) Welcome, and ask the child what they find hardest in Science.
2. (20 min) Teach one short concept from their current chapter, the Level Up way: concept → example → they try one.
3. (10 min) A 5-question mini quiz, marked on the spot.
4. (10 min) Talk with the parent: what you noticed, how batches work, fees and timings.

Follow-up messages:

- *Same day:*

```
Hi! It was lovely meeting [child] today 🙂 [He/She] picked up
[concept] really quickly. Let me know if you have any questions about
the batch.
```

- *Day 2–3 (if no reply), once only:*

```
Hi! Just checking if you had any questions about [child]'s admission
for [Class X]. The batch starts [date]. Happy to help 🙂
```

- *Day 7, final:*

```
Hi! I'll keep a seat for [child] until [date]. Do let me know either
way. No pressure at all 🙂
```

9. Referral message (current parents)

```
Hello Parents,
Thank you for trusting Level Up Academy this year 🙏
Admissions for 2027-28 are open. If you know a family looking for
[Class X] coaching, please do share our number: [number].
[If you have a referral offer: For every new admission you refer,
[reward].]
Thank you!
```

10. Asking for testimonials (one-to-one)

```
Hi! Hope you're doing well 🙂 I'm putting together a few words from
parents for our new-batch posters. Would you be comfortable writing 2–
3 lines about your experience with Level Up Academy?
I'll only use your first name (or no name at all if you prefer), and
never your child's photo without asking you first.
```

Before posting any testimonial: get the parent's OK in writing (a WhatsApp "yes" is fine), and never post a child's photo, full name or marks without explicit permission.
