YouTube videos 1 and 7: long-video scripts

These two videos depend on facts Kishan must check from the official source before recording. Every such fact is marked **[VERIFY]**. Never publish a chapter list or paper pattern from memory: a wrong fact in an education video costs more trust than it gains views.

Video 1: New NCERT Class 9 Science (2026-27): what changed?

Format: face-cam + the new book on the table + screen-recording of the contents page · 8–10 min · **record as soon as possible**, while few channels have covered it.

Title options

1. New NCERT Class 9 Science Book 2026-27: What Changed? (Chapter by Chapter)
2. Class 9 Science NEW Syllabus 2026-27: Old vs New Book Explained
3. Is Gravitation Removed from Class 9? New NCERT Science Book Explained

Thumbnail text: "NEW BOOK 2026-27" + "WHAT CHANGED?" · old cover vs new cover

Script outline

- **[0:00 Hook]** "If you're in Class 9 this year, your Science book is completely new. Some chapters you've heard about from seniors are gone, some are new, and the order has changed. Let's go through it with the actual book in my hand."
- **[0:30 Old vs new at a glance]** Show both contents pages side by side. **[VERIFY: the exact chapter list from your copy of the new book]**
- **[2:00 What's gone or moved]** Go through each topic that moved, and where it went now. (Reports say Gravitation is out of Class 9 and Reproduction has moved in from Class 10. **[VERIFY both in the book]**)
- **[4:00 What's new or reorganised]** Point out new chapters or integrated themes, with one page from each shown on screen. **[VERIFY]**
- **[6:00 What this means for students]** "Don't use old guides blindly. Check every chapter name against your book. Old question banks still help for topics that stayed, like Motion, Force, Atoms and Cells."
- **[7:30 GSEB students]** "If you're in GSEB, check which edition your school uses. State boards don't always switch in the same year." **[VERIFY with your GSEB students' books]**
- **[8:30 Close]** "I'm making topic-wise practice packs for the new book. Comment the chapter you want first."

Description

```
The new NCERT Class 9 Science book for 2026-27, chapter by chapter:
what's removed, what's moved, what's new, and how to prepare. Shown
with the actual book.

Video 7: CBSE vs GSEB Class 10 Science paper: what's different?

Format: split screen with both sample papers · 8–10 min · best in Nov–Dec

Title options

1. CBSE vs GSEB Class 10 Science Paper: Key Differences & How to Prepare
2. Class 10 Science Board Paper Pattern 2027: CBSE vs GSEB Explained
3. Same Syllabus, Different Paper? CBSE vs GSEB Class 10 Science

Thumbnail text: "CBSE vs GSEB" + "PAPER PATTERN 2027" · two papers side by side

Script outline

- **[0:00 Hook]** "The Class 10 Science syllabus is very similar for CBSE and GSEB, but the question papers look very different. If you prepare the wrong way, you lose easy marks."
- **[0:40 CBSE pattern]** 80 marks, 3 hours, sections A–E, with MCQs and assertion–reason, short answers, long answers and case-based questions. **[VERIFY the section-wise marks against the official CBSE sample paper for 2026-27]**
- **[2:30 GSEB pattern]** 80 marks, 3 hours, with a large objective section (MCQ, fill in the blanks, true/false, one-word) and "answer any" choices in the written sections. **[VERIFY against the official GSEB blueprint]**
- **[4:30 What this means]** CBSE: practise case-based passages and assertion–reason logic. GSEB: speed and accuracy in objective questions, and smart choice of questions in the written sections.
- **[6:30 Common to both]** Diagrams, balanced equations and numericals with units score in both. Show the equation sheet and the diagram checklist.
- **[8:00 Close]** "Download the practice papers in the description / message us for the mock papers in both patterns." **[Link or contact]**

Description

```
CBSE vs GSEB Class 10 Science board paper pattern: sections, question
types, marks, and how to prepare for each. Includes a practice
strategy for both boards.
